

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I enjoy satellite radio's variety and quality that are not available on FM/AM or any where else. Since I pay for these services, I object to the National Association of Broadcasters attempt to dictate what I am permitted to hear. Respectfully, I urge the FCC to reject the NAB's petition 04-160. In the best spirit of free enterprise, I urge the FCC to support XM's technology which provide the kind of programming that I my family deserves and demands.
